Drug Metabolism/Transport and Pharmacokinetics

Message from the Guest Editor

Clinically important phase I and II metabolizing enzymes and transporters from two major superfamilies, ABC (ATP binding cassette) and SLC (Solute carrier) transporters, are designated and the pivotal roles of drug metabolizing enzymes and drug transporters in the pharmacokinetics, pharmacogenomics, and drug-drug interactions have been recognized. Therefore, researchers and regulatory agencies have made an effort to understand the pharmacokinetics, pharmacogenomics, and drug–drug interactions with respect to mechanistic changes in these drug metabolizing enzymes and transporters. With a trend of polypills and increased use of medicinal food, concurrent administration of herbal drugs can cause serious adverse reactions with substrate drugs of metabolizing enzymes and transporters by the potential for the inhibition or induction of their activities. For this, the prediction and evaluation of the contribution of drug metabolizing enzymes and transporters to the pharmacokinetics and drug–drug interaction potential of drugs or drug candidates are important in clinics and in the drug development process.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
