Innovative In Vitro/In Silico Approaches to Drug Permeation and Absorption: The Highway to Implement the 3Rs Principles in Drug Development

Message from the Guest Editor

The 3Rs (*Replacement, Reduction and Refinement*) are the guiding principles for a more ethical use of animals in product testing and scientific research. These guiding principles were first spelled out as a firm legal requirement by the EU commission in the Directive 2010/63/EU on the protection of animals used for scientific purposes. Yet, 12 years on from its legal implementation, the number of animals used in pharmaceutical research has not declined. This fact does not only create a big ethical/sustainability issue, but it also raises the question: is this the correct approach to understanding complex biopharmaceutical phenomena such as drug permeation and adsorption? The answer is: probably not. This Special Issue serves to highlight and capture the contemporary progress in in vitro/in silico approaches for the reliable prediction of in vivo drug performance with special emphasis on enabling formulation testing.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
