# In Silico Strategies for Prospective Drug Repositionings

### Message from the Guest Editors

The conventional drug discovery procedure is chronophagous and seldom successful; furthermore, new drugs are needed to address the clinical challenges we face. Within this framework, drug repositioning becomes a worthy drug discovery strategy. Recent drug discovery techniques combine traditional tools with in silico strategies to identify previously unaccounted properties for drugs already in use. Indeed, big data exploration techniques capitalize on the ever-growing knowledge of drugs' structural and physicochemical properties, the drug–target and drug–drug interactions, and the latest discoveries in molecular and cellular biology. We welcome papers presenting innovative methods that connect traditional drug discovery techniques with computer-based tools to deliver robust drug repurposing hints. We do not necessarily require in vitro or in vivo validation of such hints; however, the authors need to perform cross-validation with existing knowledge or other state-of-the-art drug repurposing pipelines.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
