

## Special Issue

# Hybrid Multifunctional Drug Delivery Systems

### Message from the Guest Editors

The vast array of today's nano- and microparticle platforms include polymeric nanoparticles, lipid carrier systems as well as different types of inorganic particles. Hybrid drug carriers are the next frontier in the development of novel, multifunctional drug delivery systems, as they benefit from the synergistic properties of the individual components. Typical examples include functionalization of inorganic particles with organic constructs combining structural robustness with functional responsiveness. This course of action is usually taken in order to enhance drug encapsulation efficiency and to control drug release, or for the design of theranostic nanomaterials for simultaneous imaging and therapy.

This Special Issue aims to highlight recent advances in hybrid multifunctional drug delivery systems, with a focus on particle-based systems, ranging from synthesis methods and process understanding, their detailed physicochemical characterization and performance in vitro and in vivo, especially for controlled and/or targeted drug delivery applications.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Department of Pharmaceutics, Ernest Mario School of Pharmacy,  
Rutgers University, Piscataway, NJ 08854, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1  
(Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
