Frontiers in Hydrogel-Based Drug Delivery Systems

Message from the Guest Editors

This Special Issue on “Frontiers in Hydrogel-based Drug Delivery Systems” is based on recent developments, designs, characterizations, and applications of hydrogels. Hydrogels play a very important role in gene delivery, drug delivery, and tissue regeneration, etc. Due to good biocompatibility, biodegradability, and negligible toxicity, this versatile drug carrier system has attracted a number of multidisciplinary researchers, who want to utilize hydrogels as a controlled drug delivery system for the management of different disorders. Hence, multiple interlinked functions are executed by this drug carrier system. This Special Issue aims to highlight and overcome the challenges faced by the low-aqueous-soluble drugs while constructing versatile smart hydrogel drug-delivery systems. We invite articles based on novel hydrogel drug delivery systems that overcome the limitations concerned with drug administration and enhance the life quality of patients. We look forward to receiving your contributions. Prof.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
