

Special Issue

Innovative Drug Delivery Platforms: From Natural to Engineered Materials

Message from the Guest Editor

The innovations in Drug Delivery Systems are strongly associated with the development of support materials as well as their functionalization in order to assure targeting, internalization, tuned delivery rate and profile, etc. This Special Issue focuses on multifunctional, smart drug delivery systems for diagnosis and treatment of cancer, infections, and diabetes, etc. Regarding desired support materials, we are especially looking for natural and synthetic polymers, carbonaceous materials (carbon nanotubes, fullerenes, graphene, etc.), oxides (including micro and mesoporous materials), metal nanoparticles (silver, gold, etc.), and composite materials. The mechanism of delivery can be mainly based on diffusion, swelling, or chemical reaction; can be triggered by any factors such as temperature, pH, enzymes, or different external factors such as light, alternating electromagnetic fields, etc.; and can be resorbable or non-resorbable supports, etc. Additionally, manuscripts devoted to the study of the potential, short, mid-, and long-term efficiency and toxicity related to the use of drug delivery systems are welcome.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
