Microfluidics in Drug Delivery

Message from the Guest Editors

This Special Issue aims to collect recent advances in the microfluidic technologies developed for drug delivery. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not be limited to) the following:

- Wearables or implantable microdevices;
- Microfluidics-assisted controlled drug delivery;
- Microneedles;
- Microfluidic systems for drug delivery system production;
- Organs on a chip.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.
