

## Special Issue

# Modern Pharmaceuticals for Cardiovascular Diseases

### Message from the Guest Editors

Although various non-pharmaceutical strategies addressed to the primary prevention of cardiovascular diseases such as tobacco control policies, reducing the consumption of harmful food, and increasing physical activity still represent a key strategy, often they are not sufficient. Moreover, despite the availability of a plethora of pharmaceutical approaches specifically targeting mechanisms involved in cardiovascular diseases over recent years, the burden of these pathologies has only been marginally alleviated. Therefore, new pharmaceutical and non-pharmaceutical strategies are necessary for both primary and secondary prevention to reduce the burden of cardiovascular diseases. It is well known that recent advances in pharmaceuticals made the development of new drugs for cardiovascular diseases, which are able to significantly improve the short- and long-term prognosis and to prevent premature deaths, possible. Thus, we are pleased to invite you to submit your original articles and/or review papers to this Special Issue which aims to highlight the advances in the development of modern pharmaceuticals for cardiovascular diseases in recent years.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
