Mucoadhesive Drug Delivery Systems

Message from the Guest Editors

Mucoadhesion, described as many polymers' ability to adhere to a mucosal membrane, is a characteristic of great interest in the development of drug delivery systems for vaginal, ocular, nasal, buccal and oral routes. The use of mucoadhesive polymers enables increased residence times in \square administration or action, which is an appealing strategy to improve the treatment of local pathologies or promote greater drug bioavailability by enhancing its absorption. Furthermore, mucoadhesive polymers are frequently capable of acting as drug-release modulators, allowing sustained or stimuli-responsive drug release. However, despite their potential, the therapeutic application of these polymers is still limited. This Special Issue aims to advance the development of new drug dosage forms that benefit from the properties of mucoadhesive polymers, from development and characterization to in vivo evaluation of new formulations.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
