Special Issue

Multi-Target Drug Design for Complex Diseases

Message from the Guest Editors

For this Special Issue, our main goal is to promote open and multi-disciplinary discussion about the current and promising strategies for multi-target drug design for complex diseases, including, among other topics, experimental and theoretical/computational approaches to identify novel targets, to expand the chemical space of bioactive compounds and to design new models of complex diseases. This Special Issue will accept articles from bioinformatics and molecular pharmacology to medicinal chemistry and clinical pharmacology oriented toward the development of pharmacological therapies for complex diseases. Contributions on these topics are welcome, including original research and reviews.

- complex diseases
- multi-target drug design
- pharmacology
- novel therapies
- polypharmacology
- medicinal chemistry

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy, Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:
JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
