# Nanotechnology and Natural Products: Plant Bioactive Compounds for Drug Delivery

### Message from the Guest Editor

Environmental concerns have contributed to a rising interest in plant foods which are key sources of bioactive compounds with proven health benefits. The use of these bioactive compounds for drug delivery is only now beginning to gain increasing interest.

Further studies are necessary to clarify mechanisms of action at cellular, molecular, and genetic levels, as well as pharmacokinetics, and toxicokinetics. Pharmaceutical formulations, delivery systems and controlled-release systems have to be studied to guarantee the efficiency of these bioactive compounds.

The SI addresses how to innovate when dealing with natural compounds in managing health, and how “old” nutrition habits can be included in modern lifestyles through supplementation, as therapeutic adjuvant, or as an aid to personalized medicine through biopharmaceuticals and nutraceuticals.

Strategies for drug delivery systems that permit bioactive compounds from plants to be more bioavailable, that could improve health in the face of certain diseases with safety, and efficacy, are especially welcome.

Authors are invited to submit original research articles and reviews in this important and exciting research field.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Department of Pharmaceutics, Ernest Mario School of Pharmacy,  
Rutgers University, Piscataway, NJ 08854, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
