

## Special Issue

# Nanofibrous Scaffolds: Promising Wound Dressing Materials

### Message from the Guest Editor

Despite significant progress in the development of wound dressings, the availability of wound dressings for non-healing wounds, in addition to other types of injuries that require skin grafts, is still a challenge. Nanofibrous scaffolds and wound dressings are promising and distinguished materials that mimic the fibrous component of the natural extracellular matrix. They are useful as carriers for skin cells, promote skin regeneration and prevent the invasion of wounds by microbes. Nanofibrous wound dressings are loaded with growth factors, antioxidants, hormones, antimicrobial agents, and vitamins. Nanofibrous scaffolds are classified as advanced wound dressings, and they can facilitate controlled drug release within the wound environment. In this Special Issue of *Pharmaceutics*, we aim to highlight recent advances in nanofibrous scaffolds for wound healing applications, preparation techniques, advantages and potential drawbacks, and the in vitro and in vivo outcomes of nanofibrous scaffolds. This Special Issue welcomes full research papers, communications, and up-to-date reviews.

### Guest Editor

Prof. Dr. Blessing Atim Aderibigbe

Department of Chemistry, Tarleton State University, Stephenville, TX, USA

### Deadline for manuscript submissions

closed (10 November 2024)

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
