

Special Issue

Nanogels and Nanoparticles for Selective Drug Delivery

Message from the Guest Editors

Nanotechnology triggered the development of materials with advanced applications over the last several decades, and such materials are currently replacing old ones in our daily lives at a considerable pace. Specific applications of nanotechnology for the treatment, diagnosis, monitoring, and control of biological systems have recently been referred to as “nanomedicine”.

These involve the identification of precise targets (cells and receptors) related to specific clinical conditions and the choice of the appropriate nanocarriers to achieve the required responses while minimizing the side effects. Some of the most promising types of transport molecules are nanogels and nanoparticles. Authors are invited to submit original and review articles describing basic science, preclinical, and clinical findings that contribute to our understanding of the current and future potential applications of nanogels and nanoparticles (organic, metal, and inorganic) for selective drug delivery, to be published in this Special Issue of *Pharmaceutics*.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko
Department of Pharmaceutics, Ernest Mario School of Pharmacy,
Rutgers University, Piscataway, NJ 08854, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1
(Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
