Special Issue

Novel Nanoparticles for Photothermal and Photodynamic Therapy

Message from the Guest Editors

Photothermal therapy has emerged as a highly promising strategy for the treatment of superficial and localized tumors. It is a minimally invasive technique that takes advantage of the increased sensitivity of cancer cells to heat, relying on the induction of thermal ablation of tumor cells through irradiation with light beams. In addition, it is also considered safe, enabling a faster recovery of the patient compared with other existing therapeutic approaches. An overview of several nanoparticles for photothermal and photodynamic therapy will be herein presented, with a focus on different methods of preparation and in vitro and in vivo studies, including clinical studies using this nanotechnological approach for cancer management.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
