

## Special Issue

# Nose to Brain Delivery

### Message from the Guest Editors

The blood-brain barrier (BBB) separates the central nervous system (CNS) from general circulation. Drugs targeting the brain represent a remarkable problem, owing to BBB, which does not allow most drugs to pass through it. The use of a nose-to-brain delivery route is an important and noninvasive method of drug delivery to solve this problem and bypass the BBB. Different strategies have been developed to enhance nose-to-brain drug delivery. In fact, it is well-known that an intranasal direct anatomical connection between the nasal cavity and the CNS exists, which suggests the development of nasal formulations for brain targeting of drugs. The design and preparation of nasal formulations involve the development of polymeric pharmaceutical platforms able to interact with nasal mucosa: Bioadhesion and penetration enhancement through nasal mucosa layers are the first and most important characteristics that these systems must have. The development of new nasal systems represents a great challenge in the field of controlled drug targeting and delivery. This Special Issue has the aim of highlighting current progress in the use of the nasal route for brain targeting.

### Guest Editors

Prof. Dr. Paolo Giunchedi

Prof. Dr. Elisabetta Gavini

Prof. Dr. Maria Cristina Bonferoni

### Deadline for manuscript submissions

closed (31 January 2019)

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
