Special Issue

Mechanistic In Vitro and In Silico Modeling of Oral Drug Absorption

Message from the Guest Editor

Dear Collegaues, Mechanistic in vitro and in silico modeling of oral drug absorption is anticipated to enable accurate in vivo prediction. To achieve this goal, a better understanding of gastrointestinal physiology, drug properties, and molecular-level mechanisms is critically important. The aim of this Special Issue is to highlight current progress in this field. The scope of this issue includes in vitro models, mathematical mechanistic models, gastrointestinal physiology, drug properties, and related areas in oral drug absorption. In addition, modeling and simulation (M&S) literacy is the key to progress. Easy case-by-case parameter fitting underlies the sound development of sciences, as Ptolemy's model did for astronomy over 1300 years. Therefore, articles related to M&S literacy are also welcome (e.g., identifiability analysis).

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
