

## Special Issue

# Advance in Development of Patient-Centric Dosage Form

### Message from the Guest Editors

It is established that the medication acceptability of dosage forms could influence patient compliance and treatment efficacy and safety. Currently, research focuses on developing patient-centric formulations as personalized dosage forms where the product provides the benefits for individual patient needs. According to the World Health Organization (WHO), patient-centric formulations are becoming essential for public health when dealing with long-term diseases treated with multiple drugs. However, data related to the understanding of dosage form-related issues in medication acceptability are lacking. Therefore, the development of advanced technologies has resulted in significant efforts to develop customizable dosage forms. The focus of this Special Issue of *Pharmaceutics* will be on assessing and identifying dosage form-related issues in medication acceptability and recent advances in the development of effective strategies to produce patient-centric dosage forms to improve acceptability. This Special Issue will accept both Reviews and Research articles.

### Guest Editors

Dr. Laura Modica de Mohac  
Fondazione Ri. MED, 90133 Palermo, PA, Italy

Prof. Dr. Dimitrios A. Lamprou  
School of Pharmacy, Queen's University Belfast, Belfast BT7 1NN, UK

### Deadline for manuscript submissions

closed (30 September 2022)

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1  
(Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
