

## Special Issue

# Pharmacogenetics and Pharmacodynamics of Purinergic Drugs

### Message from the Guest Editors

Nucleotides and dinucleotides are a family of compounds with a central role in metabolism at cellular level. Since the characterization and cloning of purinergic receptors in the early 1990's there has been an explosion of interest in the physiology and pathophysiology of these nucleotidic compounds. They have been investigated in relation to a wide variety of pathologies, including neurodegenerative and neurological disorders, cardiovascular, skeletal, reproductive and immune system diseases, as well as alterations in sense organs, airways, skin, muscles, gut, kidney, urinary tract and eye. Furthermore, several purinergic drugs are already on the market, others are being investigated on clinical trials and many more are being explored for therapeutic effects on different conditions. This Special Issue will be focused on different studies about the interactions of purinergic drugs with genes related with pathologies and about the pharmacodynamics of purinergic receptor agonists and antagonists to treat a wide number of pathologies.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
