

Special Issue

Tissue Diagnosis, Phototherapy and Drug Delivery

Message from the Guest Editors

The combination of the delivery of special substances into tissues and consequent light action opens the way to numerous methods of tissue medical diagnosis and therapy, including photodynamic therapy (PDT), photothermal therapy (PPT), and photobiomodulation. The current development in this field is associated with the creation of complex substances allowing the combination of beneficial effects and the effective control of the therapeutic process by biophotonic tools. This Special Issue entitled “Tissue Diagnosis, Phototherapy and Drug Delivery” aims to present the current state-of-the-art in the creation of more effective substances and delivery techniques for PDT and PTT, as well as new optical methods of tissue diagnosis, PDT/PTT implementation, and control. New and renovated dyes, nanomaterials, and their composites are welcome. We invite researchers from the pharmaceutical/food industry or academia to submit original research articles, review articles, or commentaries. This Special Issue will provide researchers with an up-to-date resource on how biophotonics can help in phototherapy and diagnosis.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2026).
