Special Issue

Polymer Nanoparticles for the Delivery of Anticancer Drugs

Message from the Guest Editor

Nanotechnology is at the commanding height of strategic technology in the 21st century, among which nanoparticles are revolutionizing the field of drug delivery, especially regarding cancer, their therapeutic effects in practical applications though still being far from satisfactory on account of their poor water solubility and poor pharmacokinetics. Luckily, the booming nanocarriers have introduced bright prospects for gaining encouraging therapeutic outcomes, since they can be engineered to enhance the solubility and circulation time of drugs, as well as efficiently bringing drugs to cancer cells. Therefore, we would like to invite you to contribute both reviews and original articles highlighting recent progress in the development of polymer nanoparticles for the delivery of anticancer drugs. Main topics include, but are not limited to: polymer nanoparticles for chemotherapeutic drug delivery, nucleic acid delivery, chemotherapeutic drug and nucleic acid-based co-delivery, photosensitizer delivery, etc.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
