

## Special Issue

# Recent Advances in Amorphous Drug

### Message from the Guest Editors

The research on amorphous forms of drugs has been intensified in recent years. One of the main reasons for the increasing interest is the favorable changes that these highly energetic and disordered forms can induce in substance properties used as ingredients in either food, cosmetics, nutraceuticals or pharmaceuticals. The dissolution rate, a critical subject for poorly water soluble molecules, can be, for instance, potentially improved. Additionally, developments in this form of matter will contribute to a better understanding of the glass transition origin which remains a challenge in the aims of condensed matter physics. An in-depth physicochemical characterization is required either if the amorphous state is taken as the starting form for formulation constituents, or if it is a consequence of, for instance, incorporation in a nanostructured carrier. Then, a multidisciplinary approach will help to define the appropriate conditions to obtain and stabilize drugs in this thermodynamically unstable form, allowing for establishing the optimal conditions to be safely handled during preparation, storage and administration.

### Guest Editors

Dr. María Teresa Viciosa

Dr. Madalena Dionísio

Dr. Hermínio P. Diogo

### Deadline for manuscript submissions

closed (31 March 2023)

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Department of Pharmaceutics, Ernest Mario School of Pharmacy,  
Rutgers University, Piscataway, NJ 08854, USA

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1  
(Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
