

## Special Issue

# Recent Advances in Metal-Based Drug Delivery

### Message from the Guest Editor

Metal-based drugs have drawn significant attention over the past few decades due to their advanced properties and benefits in biomedical therapeutic and diagnostic systems. The utilization of metal-based drugs has been considered as a promising treatment for the most challenging diseases, including cancer and HIV. Drug delivery strategies possess significant advantages in making the carried agents water soluble, therapy efficient, and less prone to drug resistance. Due to their promise, especially in cancer treatment, numerous drug delivery carriers, including polymer nanoparticles, solid lipids, and inorganic nanoparticles, have been developed for the delivery of metal-based drugs. This Special Issue of *Pharmaceutics*, entitled “Recent Advances in Metal-Based Drug Delivery”, welcomes original research focusing on every aspect of novel systems for the delivery of metal-based drugs, including their fabrication methods, mechanisms of action, applications in diseases, and prospects for future development.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1  
(Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
