

## Special Issue

# Supramolecular Approaches for Pharmaceutical Applications

### Message from the Guest Editors

in recent years the rational design and therapeutic applications of supramolecular systems in the pharmaceutical field has gathered significant interest. Based on host–guest interactions and self-assembling processes, a large number of supramolecular architectures have been envisaged as efficient drug delivery systems: nanoparticles, hydrogels, cyclodextrins, surfactant/polymer micelles, (micro)emulsions, liposomes, layer-by-layer assemblies, and various molecular conjugates. Drug carriers used for drug delivery and targeting to specific physiological sites present some benefits over conventional formulations, including increased solubility, enhanced stability, improved bioavailability, tissue targeting, and limited adverse effects. We are pleased to invite you to contribute a full research paper or review article for peer review and possible publication in the Special Issue “Supramolecular Approaches for Pharmaceutical Applications”. This Special Issue aims to focus on the fundamental aspects and the design of supramolecular constructs as effective drug delivery systems and their potential application in different therapies.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Department of Pharmaceutics, Ernest Mario School of Pharmacy,  
Rutgers University, Piscataway, NJ 08854, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
