

## Special Issue

# Recent Developments in Theranostic Nanoparticulate Drug Delivery Systems

### Message from the Guest Editors

There has been emerging interest in recent years in the development of multifunctional drug delivery systems that can be used simultaneously for both imaging and therapy. Theragnostic, which is a portmanteau of the words 'therapy' and 'diagnostics', is of importance as it moves away from the 'one medicine fits all' approach in order to provide targeted and patient-centered care. Nanotheranostic systems have the potential to facilitate early disease detection, disease-specific biomarker identification, selection of patient-specific therapies, real-time treatment monitoring, and early detection of off-target effects of the treatment using a single formulation. Multifunctional nanotheranostic platforms with dual-modality imaging capabilities, and loaded with multiple therapeutics, are also being developed and studied for the management of various diseases. For this Special Issue, we welcome original research and review articles that highlight recent research advances and breakthroughs in the area of 'Recent Developments in Theranostic Nanoparticulate Drug Delivery Systems'.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
