# Protein Therapeutics in Biopharmaceutics

# Message from the Guest Editor

Protein drugs are the most active and fast-growing part in the field of drug research and development, and one of the most promising industries in the twenty-first century. Therapeutic protein drugs are an important class of medicines serving patients most in need of novel therapies. Protein drugs are developed to treat a wide variety of clinical indications, including cancers, autoimmune diseases, inflammation, diabetes neurodegenerative effects, exposure to infectious agents, and genetic disorders. Recent approved recombinant protein therapeutics has been used to target specific sites. A confluence of computational and high-throughput experimental methods for proteinengineering and "off the shelf" platform technologies has ushered in unprecedented opportunities to develop safe, effective, and more convenient protein therapeutics. In this Special Issue, we invite authors to report their recently developed protein-based strategies for diagnosis and/or treatment of various disease states. We also welcome reviewer articles with expert opinions and perspectives in the protein therapeutics in biopharmaceutics field.

# **About the Journal**

# Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

## **Author Benefits**

# **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

## Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

# **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
