

Special Issue

Topical Microemulsion Formulation for Transdermal Drug Delivery

Message from the Guest Editors

We are planning to publish a Special Issue based on “Topical Microemulsion Formulation for Transdermal Drug Delivery” in the journal *Pharmaceutics*. Transdermal drug delivery systems play an important role in the delivery of drugs with low permeability through the skin by enhancing their permeability and treatment action, avoiding the hepatic first passage, and reducing toxicity. Recently, new optimized approaches have been developed for transdermal drug delivery with the purpose of avoiding and overcoming the complications of drugs generated as a result of other drug delivery systems. This Special Issue aims to highlight and capture the challenges faced by the low permeable soluble drugs by developing a topical microemulsion formulation for transdermal drug delivery. We invite articles based on novel topical microemulsion formulations to overcome the challenges generated as a result of drug administrations. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
