

## Special Issue

# Advances in Topical and Transdermal Drug Delivery

### Message from the Guest Editors

We are pleasure to invite you to contribute a full article, short communication, or review article to a Special Issue entitled “Advances in Topical and Transdermal Drug Delivery”. The Issue aims to cover the most recent advances and newly developed approaches to improve skin drug delivery. Skin is the biggest organ in human body, represents an important drug administration route, and is a place for the application of cosmetics and therapeutic agents. Transdermal drug delivery has attracted a great deal of attention as an alternative to the oral administration of drugs and hypodermic injections, mainly due to its many advantages like improved bioavailability, more uniform plasma levels, longer duration (and thus reduced dosing frequency), enhanced patient compliance, and reduced systemic side effects. However, this organ represents a great challenge for drug delivery since it blocks the entry of most cutaneously administered drugs. Therefore, different approaches have been developed to surmount these limitations. We expect to collect interesting solutions developed with the aim of overcoming the current drawbacks of skin drug delivery.

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1  
(Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
