Special Issue

Recent Advancements in Nanobiotechnology and Immunotherapy for the Treatment of Solid Tumors

Message from the Guest Editors

Onco-immunotherapies, such as immune checkpoint blockade inhibitors and adoptive cell therapies, are revolutionizing the field of cancer therapy due to their ability to induce strong anti-tumor immune responses. The use of nanoparticle-based delivery systems (NPs) to improve conventional onco-immunotherapies is gaining traction due largely to the versatility of this approach. We are inviting the submission of high-quality research papers and reviews exploring the synergistic combinations between nanotherapeutics and immunomodulatory molecules for the treatment of solid tumors. We expect to receive contributions from different areas of multidisciplinary research, including (but not restricted to): innovative immunomodulatory nanomaterial design, NP surface functionalization and characterization, the relationship between the physicochemical properties of NPs and their immunomodulation properties, and potential new therapeutic applications in solid tumor treatment. This Special Issue aims to make a significant collective contribution to this field of study. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
