

## Special Issue

# Biomaterials in Skin Wound Healing and Tissue Regenerations

### Message from the Guest Editors

Normal skin wound healing is a complex biological process, involving many different stages and cell types as well as numerous signaling molecules and pathways which aim to restore skin structure and function. However, impaired wound healing is a major medical problem, especially in diabetes. Promotion of skin regeneration in case of acute or chronic wounds through the use of tissue-engineered products is an active field of research. One of the primary goals of tissue engineering and regenerative medicine is the development of a matrix or scaffolding system that mimics the structure and function of native tissue. In the last few years, biomaterials have been widely investigated for several biomedical applications such as implants, wound dressing, scaffolds, drug delivery systems and antibacterial agents for regenerative medicine. These materials' surface functionalization, by incorporating biomolecules, biopolymers or bioactive drugs, has been shown to achieve improvements in fields of creating new type of wound dressings.

### Guest Editors

Prof. Dr. Ewa Kłodzińska

Department of Analytical Chemistry and Instrumental Analysis, Institute of Sport-National Research Institute, Warsaw, Poland

Dr. Marek Konop

Department of Experimental Physiology and Pathophysiology, Laboratory of Centre for Preclinical Research, Medical University of Warsaw, 02-091 Warszawa, Poland

### Deadline for manuscript submissions

closed (10 January 2022)

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Department of Pharmaceutics, Ernest Mario School of Pharmacy,  
Rutgers University, Piscataway, NJ 08854, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1  
(Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
