Deadline for manuscript
submissions:

closed (15 November 2021)

Message from the Guest Editor

Dear Colleagues,

We invite you to contribute original research manuscripts and/or reviews of the current scientific literature for this Special Issue of *Pharmacy* focused on all aspects of dietary supplement use: raw materials; the development and manufacturing process; quality control and process validation of the final products; the clinically researched data and scientifically driven efficacy proofs; possible mechanisms of action; and the pharmacists' major impact in recommending, advising, and counseling patients on the use of these products. Manuscripts focused on any relevant issues considering the regulation of dietary supplement products and the guidelines for the limits on heavy metals, pesticides, and environmental toxins will also be considered. The widespread and frequent use of dietary supplements, coupled with their high diversity, creates an important need for unbiased and reliable scientific evidence regarding their safety, efficacy, and potential human health risks.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance.

The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.6 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2023).
