Deadline for manuscript
submissions:

closed (31 October 2018)

Message from the Guest Editor

Dear Colleagues,

Medication non-adherence is described by the World Health Organisation as a “worldwide problem of striking magnitude”. Adhering to prescribed medication directions is a complex health behaviour potentially presenting numerous challenges to the patient. The research challenges include generating evidence to support practitioners in accurately identifying patients who are non-adherent, determining the reason(s) for the non-adherence and then working with the patient to develop appropriate solution(s).

We invite you to share your research regarding medication adherence, which may be from any point along the process of intervention development ranging from theory and evidence base generation through to feasibility/piloting, evaluation and implementation.

Dr. Debi Bhattacharya

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance.

The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.6 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2023).
