

Special Issue

The Pharmacist's Role in Cancer Prevention: Innovations and Best Practices

Message from the Guest Editor

Dear colleagues, The Special Issue aims to spotlight the growing impact of pharmacists in oncology—prevention and early intervention and patient support. We welcome original research, reviews, and case studies that explore the pharmacist's expanding role in the following areas:

- **Cancer prevention strategies**—including lifestyle counseling, vaccination initiatives, and chemoprevention.
- **Interdisciplinary collaboration**—enhancing outcomes through team-based care involving pharmacists.
- **Pharmaceutical innovations**—covering new drug delivery systems, targeted therapies, and cutting-edge developments in oncology.
- **Patient education and support**—empowering patients with knowledge, expectation management, and emotional care.
- **Policy and advocacy**—advancing the pharmacist's role through regulatory change and healthcare system integration.

This is a unique opportunity to contribute to a timely and impactful collection that positions pharmacists as essential leaders in cancer care. Join us in shaping the future of oncology through pharmacy innovation. Dear ,

Guest Editor

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. David J. Wright

School of Healthcare, University of Leicester, Leicester LE1 7RH, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.9 days after submission; acceptance to publication is undertaken in 4.6 days (median values for papers published in this journal in the second half of 2025).
