

## Special Issue

# Sustainability of Pharmacy Oncology Education and Practice

### Message from the Guest Editor

The special issue will focus on the Oncology Pharmacy education of Pharmacy students, pharmacy residents, oncology pharmacists. It may also cover the important practice areas such as oral oncolytic drugs and supportive care therapy. It may also provide guidelines for the monitoring of adverse effects of chemotherapy and targeted therapy. In addition, some papers could be submitted on how to sustain education of students on the skills needed to practice as they transition from school to the practice environment. The education of patients is an important aspect to successful outcomes in oncology. Patients need to be taught the proper method of taking oncology medication, self-monitoring, and follow up. Educational materials should be provided in both written and audiovisual format. Patient education sessions should follow American Society of Health-System Pharmacist and ASCO standards and cover diagnosis, drug treatment, schedule of treatment, drug interactions and adverse effects. These sessions should also include a comprehensive medication review by the pharmacist.

### Guest Editor

Prof. Dr. Robert Ignoffo

School of Pharmacy, Department of Clinical Pharmacy, Touro University California, Mare Island Vallejo, CA 94592, USA

### Deadline for manuscript submissions

closed (31 December 2023)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published.
