

## Special Issue

# Pharmacists' Role in Reducing Problematic Opioid Use

### Message from the Guest Editor

Pharmacy and pharmacists have always had a role in reducing the misuse of opioids. In the past, this was more of a policing capacity in which pharmacists focused on preventing the misuse of opioids. However, this has changed as we have adopted a more caring approach from an understanding that opioid use can be problematic for individuals, by causing them harm, increasing the risk of overdose, and all the problems that can go along with drug dependence. Pharmacists' role has developed into both a public health and clinical response to the considerable challenges faced by people struggling with pain management and or drug dependence. Pharmacists provide a range of services, care, and support that we want to highlight in this special issue of Pharmacy. The aim of this special issue is to provide a platform to showcase novel and innovative practice and models of care. We welcome a full range of research and evaluation methodologies.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.9 days after submission; acceptance to publication is undertaken in 3 days (median values for papers published in this journal in the first half of 2025).
