Special Issue

Antibiotic Allergies

Message from the Guest Editor

The score of this Special Issue is Management of Antibiotic Allergies. It is well documented that patients labeled as allergic to antibiotics are more likely to receive second-line antibiotics that are often more toxic and less effective. The goal of this issue is to assemble orignial research and reviews about the management of antibiotic allergies in all practice settings. All published articles will be indexed in PubMed.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format-research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Jon Schommer
College of Pharmacy, University of Minnesota, Minneapolis, MN 55455, USA

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.9 days after submission; acceptance to publication is undertaken in 3 days (median values for papers published in this journal in the first half of 2025).
