Atrial Fibrillation Management in Pharmacy

Message from the Guest Editors

Atrial fibrillation (AF) is the most common recurrent arrhythmia encountered in clinical practice, and is associated with significant morbidity and mortality. Contemporary guidelines for the management of AF have highlighted the importance of an integrated, multidisciplinary and patient-centred approach to ensure optimal patient outcomes. Given that pharmacotherapy, namely anticoagulation, is one of the cornerstones of AF management, there are recognised roles for pharmacists in the provision of anticoagulation monitoring and support, education provision, medication m

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. David J. Wright

School of Healthcare, University of Leicester, Leicester LE1 7RH, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.9 days after submission; acceptance to publication is undertaken in 4.6 days (median values for papers published in this journal in the second half of 2025).
