

Special Issue

Medications in the Environment

Message from the Guest Editors

The problem of environmental contamination with pharmaceuticals is under the radar screen, though efforts at proper disposal of medications and drug take-back days are becoming more prominent. However, it is not enough. We need to educate pharmacists about this issue so that they can take the lead in helping to prevent or minimize medication contamination of the environment. We invite you to share your approaches and successes in educating healthcare professionals and the public the impact of medications in the environment, as well as your research to combat the problem.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Jon Schommer

College of Pharmacy, University of Minnesota, Minneapolis, MN 55455,
USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.9 days after submission; acceptance to publication is undertaken in 3 days (median values for papers published in this journal in the first half of 2025).
