Medicine Use in Upper Respiratory Airways and Asthma

Message from the Guest Editors

Chronic, allergic, airway diseases, specifically asthma and rhinitis, are on the rise worldwide, and represent an enormous health and economic burden to individuals, healthcare systems, and society. When it comes to the management of these conditions, which often coexist, the inappropriate use of medications is a major issue and remains a persistent barrier to achieving optimal patient outcomes. This has been highlighted by the recent Lancet Asthma Commission, calling for effective methods of identifying and addressing non-adherence to inhaled preventative asthma medication, and Allergic Rhinitis and its Impact on Asthma (ARIA) in Pharmacy, identifying the need for delivery of strategies and interventions that address suboptimal rhinitis and asthma control arising from suboptimal treatment.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Jon Schommer

College of Pharmacy, University of Minnesota, Minneapolis, MN 55455,
USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.9 days after submission; acceptance to publication is undertaken in 3 days (median values for papers published in this journal in the first half of 2025).
