

Special Issue

Innovations and Systems Approaches to Medication Safety in Pharmacy Practice

Message from the Guest Editors

This Special Issue focuses on advancing medication safety through contemporary, systems-oriented approaches in diverse healthcare settings. Its scope encompasses the entire medication use process, spanning multidisciplinary teams, digital health tools, patient engagement, and high-risk medication management. The purpose is to consolidate evidence and present innovative, practical strategies that healthcare teams can implement to mitigate medication-related risks and build more resilient, patient-centered care systems. By synthesizing insights across these interconnected domains, the issue demonstrates how technological integration, team-based care, and patient-centered initiatives collectively contribute to building more resilient and safer medication use systems for the future.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. David J. Wright

School of Healthcare, University of Leicester, Leicester LE1 7RH, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.9 days after submission; acceptance to publication is undertaken in 4.6 days (median values for papers published in this journal in the second half of 2025).
