Novel Systems in Health Care Delivery: Leadership at its Finest

Message from the Guest Editor

The continued evolution of health care has required institutions to develop novel health care delivery systems to meet patient needs. Health care administrators develop these alternate strategies to positively impact patient care, patient satisfaction, and operational efficiency. Pharmacists serve as integral team members during these times of change. In addition, emerging technological advancements can provide tools, helping to further develop unique ways to meet patient care needs. Pharmacists must build relationships with other professionals to improve these systems for successful and sustained innovations. As pharmacy leaders we are called to create, implement, and maintain these systems to evolve with the changing health care environment, setting strategic goals for the future of pharmacy practice.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. David J. Wright

School of Healthcare, University of Leicester, Leicester LE1 7RH, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.9 days after submission; acceptance to publication is undertaken in 4.6 days (median values for papers published in this journal in the second half of 2025).
