

Special Issue

Psychotropic Medication Adherence

Message from the Guest Editor

Pharmacy—an open-access pharmacy education and practice journal—is preparing a Special Issue entitled “Psychotropic Medication Adherence”. Medication adherence is a major concern when treating patients with behavioral health disorders, one in which every team member must be involved. This issue will feature research and reviews regarding the current knowledge base regarding psychotropic medication adherence and potential solutions. I invite you to consider submitting an article related to psychotropic medication adherence to further the discussion regarding innovative solutions and techniques to assist patients.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Editor-in-Chief
