Medication Management and Pharmaceutical Care in Clinical Pharmacy

Message from the Guest Editor

Pharmacists have an important role to play in the quality use of medicines by advising on the selection of medicines and dosing, safe handling, storage and use, minimising harm from medications and monitoring outcomes. Knowledge of pharmacokinetics and pharmaceuticals are unique skills that pharmacists bring to the health care team. Pharmacists may also be involved in clinical trials, laboratory-based studies developing new drugs, repurposing existing drugs or describing the pharmacokinetics of drugs, investigating the stability and compatibility of drug formulations and admixtures for clinical use or the use of technology to improve medication safety.

The aim of this Special Issue is to provide a platform for pharmacists to share their innovations, experiences, reviews and research and promote the discussion of topics relating to improving and informing medication use in different clinical settings.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Jon Schommer

College of Pharmacy, University of Minnesota, Minneapolis, MN 55455,
USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.9 days after submission; acceptance to publication is undertaken in 3 days (median values for papers published in this journal in the first half of 2025).
