

Special Issue

Medicines Management for the Transition of Care from Hospital to Home

Message from the Guest Editors

Nowadays, the role of family caregivers in the provision of care to older people, patients with chronic and psychiatric diseases, dementia and Alzheimer's has been highlighted. Current knowledge and experiences should be connected to improve our understanding of the models of care transition influencing medication practice in different contexts and cultures that can be used by caregivers in other settings. In this Special Issue, the editors welcome research articles (qualitative and quantitative), letters to the editor, theoretical and methodological reviews on experiences and interventions related to care transitions from hospital to home with a focus on medicine management (from drug prescription to drug administration, and adverse drug reaction monitoring and management approaches) and with consideration of the roles of different stakeholders including patients, family caregivers, nurses, pharmacists, physicians, etc. Additionally, practical experiences and reflections on the role of advanced technologies and e-health solutions in facilitating the medicine management during care transitions and the prevention of medication errors are encouraged.

Guest Editors

Prof. Dr. Mojtaba Vaismoradi

Faculty of Nursing and Health Sciences, Nord University, 8049 Bodø, Norway

Dr. Tarja Välimäki

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Jon Schommer

College of Pharmacy, University of Minnesota, Minneapolis, MN 55455,
USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.9 days after submission; acceptance to publication is undertaken in 3 days (median values for papers published in this journal in the first half of 2025).
