

Special Issue

Palliative Care

Message from the Guest Editors

Pharmacists are important members of the interdisciplinary teams in palliative care. Their unique expertise in management of medicines and formulation complements the skills of other health professional in the team. Pharmacists assume the responsibility and accountability for managing medication therapy, improving the quality of patient care by optimising the use of medicines and rationalising expenditure. It encompasses medicines reconciliation, a process that is essential in ensuring accurate and reliable information about the patient's medication is transferred between care settings. Pharmacists have numerous other roles, including counselling patients and carers on the use of medicines, education of health professionals, provision of pharmaceutical and therapeutic advice and clinical research, the outcomes of which will influence day to day clinical practice. Therefore, this special issue aims to highlight the contributions of pharmacists in palliative care and provide a way for different models of practice or delivery of education to be reported.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Jon Schommer

College of Pharmacy, University of Minnesota, Minneapolis, MN 55455,
USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.9 days after submission; acceptance to publication is undertaken in 3 days (median values for papers published in this journal in the first half of 2025).
