and Biotechnology, Graduate  
School of Engineering, University  
of Fukui, Fukui 910-8507, Japan

Deadline for manuscript  
submissions:

**closed (31 December 2021)**

### Message from the Guest Editor

Dear Colleagues,

Photoredox catalysis is the most exciting topic in organic chemistry today, because photoredox catalysts can provide unique and environmentally friendly processes for organic synthesis. Therefore, this Special Issue aims to illustrate recent developments on photoinduced reactions with photoredox catalysts. Contributions will focus on a broad range of organic reactions by effective photoredox catalysts.

Prof. Dr. Yasuharu Yoshimi
