Feature Review Papers in Photochemistry

Message from the Guest Editors

Photochemistry stands as a vibrant and inherently interdisciplinary domain, meticulously probing the intricate dance between light and matter. This exploration unfurls a vast tapestry of applications, spanning from the pivotal conversion of solar energy to the pioneering development of novel materials and pharmaceuticals. As our comprehension of light-induced phenomena continues to advance, so too does the horizon of potential applications expand, offering innovative solutions to pressing challenges in the realms of energy, environment, and health. In this spirit, the Special Issue “Feature Review Papers in Photochemistry” is meticulously curated to spotlight the most recent strides and exhaustive reviews within the photochemical sphere. We cordially extend an invitation for the submission of review articles that not only delve into recent advancements but also offer a critical and constructive appraisal of the extant knowledge, alongside forward-looking perspectives.

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid
by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), EBSCO,
and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 21.4 days after
submission; acceptance to publication is undertaken in 3.5
days (median values for papers published in this journal in
the first half of 2025).
