## Feature Papers in Photochemistry

### Message from the Guest Editor

It is our pleasure to announce a new Special Issue "Feature Papers in Photochemistry." This Special Issue is designed to publish high-quality papers in *Photochem*, a journal dedicated to recent advances in the research area of photochemistry. The Special Issue engages in but is not limited to the following topics: interactions of UV and visible and IR radiation with molecules and materials. Photochemistry has important associations across a wide spectrum of science, including physics, organic and inorganic chemistry, materials science, biology, and medicine. The Special Issue will present a collection of both research articles and review articles highlighting interesting results in the field of photochemistry. Dr. Marcelo I. Guzman

#### Author Benefits

##### Open Access:

free for readers, with article processing charges (APC) paid  
by authors or their institutions.

##### High Visibility:

indexed within Scopus, ESCI (Web of Science), EBSCO,  
and other databases.

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 19.2 days after  
submission; acceptance to publication is undertaken in 4.3  
days (median values for papers published in this journal in  
the second half of 2025).
