Deadline for manuscript  
submissions:

**closed (30 November 2022)**

### Message from the Guest Editor

Dear Colleagues,

The advent of autonomous vehicles and the increased use of proximity sensors and other similar technologies has led to the remarkable growth of photonics technologies for these purposes. At the same time, new sensors and technologies have become available. Sensor-like event based sensors (EBS), neuromorphic cameras, along with the improvement of LIDAR and similar techniques, is providing the basis for the flourishing of these technologies, particularly in the automotive industry.

Dr. Sergio Restaino

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Photonics* (ISSN 2304-6732). *Photonics* is an online open access journal covering both the fundamental and applications of optics and photonics. *Photonics* strives to provide an avenue to allow authors to disseminate their scientific findings—both theoretical/ simulations and experimental works—in highly accessible peer-reviewed journal publications. The manuscript in *Photonics* will be handled with quick turnaround production processing time. We welcome authors to submit their manuscripts for publications in *Photonics*. Our goal in *Photonics* is to enable fast dissemination of high impact works to the scientific community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q2 (Instrumentation)
