Message from the Guest Editors

Dear Colleagues,

This Special Issue will focus on state-of-the-art research in mid-IR optic and optoelectronic devices. In this special Issue, original research articles, letters, and reviews are welcome. Research areas may include (but are not limited to) the following:

- Mid-infrared lasers and sources;
- Mid-infrared modulators, spatial light modulators, beam-shaping, and beam-steering devices;
- Mid-infrared photodetectors and focal plane arrays;
- Other mid-infrared optic and optoelectronic devices;
- Chip-integrated mid-infrared devices and systems;
- Mid-infrared metasurface and metamaterial devices;
- Mid-infrared materials (semiconductors, crystals, 2D materials, etc.) for device applications.

an Open Access Journal by MDPI

School of Electrical and
Electronic Engineering (EEE), The
University of Adelaide, Adelaide,
SA 5005, Australia

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Photonics* (ISSN 2304-6732). *Photonics* is an online open access journal covering both the fundamental and applications of optics and photonics. *Photonics* strives to provide an avenue to allow authors to disseminate their scientific findings—both theoretical/ simulations and experimental works—in highly accessible peer-reviewed journal publications. The manuscript in *Photonics* will be handled with quick turnaround production processing time. We welcome authors to submit their manuscripts for publications in *Photonics*. Our goal in *Photonics* is to enable fast dissemination of high impact works to the scientific community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q2 (Instrumentation)
