Message from the Guest Editor

Dear Colleagues,

Due to the rapid emergence of data-hungry services such as ultra-high-definition (UHD) video streaming, online video gaming, virtual/augmented/extended reality (VR/AR/XR), Industry 4.0 and Internet of things (IoT) in recent years, the demand for high-speed communication is continuously increasing. Among various communication technologies, optical communication has been widely recognized as a promising solution. This Special Issue focuses on the state-of-the-art optical communication technologies in China, which covers all aspects of optical communication including optical fiber communication, optical wireless communication, optical networking, visible light communication, visible light positioning, radio-over-fiber, microwave and THz photonics, digital signal processing and machine learning techniques for optical communication, etc.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Nelson Tansu

School of Electrical and
Electronic Engineering (EEE), The
University of Adelaide, Adelaide,
SA 5005, Australia

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Photonics* (ISSN 2304-6732). *Photonics* is an online open access journal covering both the fundamental and applications of optics and photonics. *Photonics* strives to provide an avenue to allow authors to disseminate their scientific findings—both theoretical/ simulations and experimental works—in highly accessible peer-reviewed journal publications. The manuscript in *Photonics* will be handled with quick turnaround production processing time. We welcome authors to submit their manuscripts for publications in *Photonics*. Our goal in *Photonics* is to enable fast dissemination of high impact works to the scientific community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q2 (Instrumentation)
